EVENT DETAILS

Africa Contractor Roadshow - U.S. Company Consultations to AK & WA

Africa is considered an emerging market that the U.S. has gently explored in the past but is becoming a more crucial player in the U.S. food and agriculture export market. The African continent is positioned to become a key market for trade and investment in the coming decades supported by the launch of the African Continental Freed Trade Area (AfCFTA) in January 2021 that will create opportunities through greater economic integration, intraregional trade, and investment among member countries. Years of steady economic growth in Sub-Saharan Africa have created a growing middle class making it one of the most promising markets to explore. More consumers are looking for quality goods and services which American products are known for.

For this activity, WUSATA is bringing Zurcom International to Alaska and Washington to conduct one-on-one consultations with companies interested in the Africa market. Zurcom International has decades of experience specializing in export trade and investment opportunities in emerging markets. This will be an invaluable opportunity for Alaska and Washington companies to gain tailored insights into market trends, trade opportunities, consumer preference, buying behavior, product demand, suggested regional focus, and export requirements.

Benefits of Participation:

- Meet in person with WUSATA's contractor for Africa.
- Market Briefing
- Explore export opportunities and identify potential new markets for your product, including markets you may not have considered before.
- Learn about the opportunities and demands of consumer oriented, food service, and seafood products in the Africa market and receive recommendations on which African countries would be a good fit for your product.
